Norman Geschwind Prize in Behavioral Neurology

Established 1999
This prize is awarded to an individual for outstanding research in the field of behavioral neurology. Applicants should have a strong desire to expand the field of behavioral neurology through research.

2012 Recipient: Marco Catani, MD, London, United Kingdom

Norman Geschwind Prize Subcommittee Selection Statement:
“Dr. Catani has pioneered the use of novel neuroimaging techniques to examine networks underlying language, vision, and spatial awareness. He has contributed to the development of neuroanatomical models of cognition and behavior, and to the elucidation of the anatomic basis of cognitive and neuropsychiatric disorders. Currently a Clinical Senior Lecturer and Head of the Natbrainlab at the Institute of Psychiatry, King’s College, London, Dr. Catani has received training in neurology, geriatric medicine, and neuropsychiatry.”

Award History
2011 David Wolk, MD
2010 Keith Josephs, MD, MST, MS
2009 Bradley Schlaggar, MD, PhD
2008 Andrew Budson, MD
2007 Anna M. Barrett, MD
2006 Maurizio Corbetta, MD
2005 Jason Barton, MD, PhD, FRCPC
2004 Argye Hillis, MD
2003 Anne Foundas, MD

Presentation
Recipient is expected to give a 10-minute presentation on a topic of his or her choice during a scientific session at the 65th AAN Annual Meeting in San Diego, CA.

Recipient Will Receive
- Certificate of recognition and $1,000 prize
- $100 per day for expenses (up to two days)
- Complimentary registration for the 65th Annual Meeting
- Recognition at the 2013 Awards Luncheon at the 65th Annual Meeting

Eligibility
- Must be no more than 10 years from completion of most recent training program and no higher academic rank than assistant professor
- Research must be within the following fields of behavioral neurology: geriatric neurology, cognitive neurology, neuropsychology, neuropsychiatry, clinical cognitive neuroscience, cognitive neuroscience, or other fields deemed by the review subcommittee to be within the scope of behavioral neurology

Application Procedure
Applicants should submit one complete set of the following:
1. Completed application form
2. Current curriculum vitae
3. Letter summarizing the focus of the applicant’s research program, the independent contributions made by the applicant in the field of behavioral neurology, and reasons why the applicant should receive the award
